

Semi-Automatic Tablet Press Machine THDP-3

Introduction:

Efficient and portable single punch tablet machine This machine is used to compress various granular raw materials into various tablets. It is suitable for small batch production and scientific research experiment teaching in pharmaceuticals, health products, food, agriculture, chemical industry, electronic batteries, metallurgical ceramics and other industries. It is characterized by a small desktop electric continuous tablet press machine, which can also be operated by hand. Only one punching die is installed on the machine. The filling depth of the material and the thickness of the tablet can be adjusted, and the weight, thickness and hardness of the product can be adjusted. Adjust, you can press different products only by changing different molds.

Technical Parameters:

Model	THDP3
Pressing Shape	Round
Pressing Thickness	Adjustable
Tablet Diameter (mm)	5-15
Thickness of Tablet (mm)	6
Production (pcs/hour)	4000pcs
Size of Machine (mm)	45*30*55
Weight of Machine	45KG
Weight with Package	60KG
